# Botanical Gardens

The extensive Quilombo botanical gardens & agricultural station, were created in 1907 and are considered the sanctuary of biodiversity in this region.

# Rapids on the Kwanza River

Surfacing in Bie province (the highland "water-tower" where many of Angola's great rivers rise), the Kwanza River is some 960kms long flowing into the Atlantic near Luanda. Here, south of Malanje, we will visit these vibrant and exhilarating rapids created by a small waterfall.

# Kalandula Falls

**The majestic Kalandula Falls are one of the largest waterfalls by volume in Africa. At an amazing height of 105m they are a rival to Victoria Falls.**

# “Casa do Gaiato”

CASA DO GAIATO

The “Casa do Gaiato” is an orphanage for boys only in Malanje which also has a small chapel. We could perhaps be lucky to hear the congregation singing in the local dialect.

# Pedras Negras "Black Rocks"

The fascinating Black Rocks at Pungo Andongo are between 200 and 250 million years old. We will also visit and witness the famous footprint of Rainha (Queen) Nzinga imprinted in the rock.
